SUMMARY

I am a front-end web developer with strong interpersonal skills, an ability to quickly grasp new concepts/technologies, and a passion for bringing the two together. Currently, I'm searching for teams and projects that can utilize my skills, talents, and penchant for collaboration.

TECHNICAL SKILLS

LANGUAGES: HTML, CSS, Python, JavaScript, C#, SQL
FRAMEWORKS: Django, Express.js, Entity, ASP.Net Core/MVC, Bootstrap
DATABASES: MySQL Workbench, MongoDB, ERD Building
Others: MAMP, GitHub, Node.js, npm, Pip, AWS (EC2), Razor, LINQ, JSON, jQuery

WEB DEVELOPMENT EXPERIENCE

Front-End Web Developer, *Coding Dojo Developer Bootcamp*, *Bellevue, WA — 2017*

Completed an immersive, full-stack web development program with a focus on client-side development. It consisted of more than 800 hours spent learning and the application of HTML/CSS, Python/Django, MEAN, and C#/ASP.Net MVC.

Projects:

★ **Website Redesign Experiment** (front-end) — A redesigned version of a local restaurant's website including a complementary case study

  ○ Hand-crafted a new design for a Mediterranean restaurant. Features include single-page scrolling, sticky navigation bar, tabbed image gallery, multiple Google API utilization, and thematic styling throughout. Case study provides a breakdown for each design decision.
  ○ Developed using JavaScript, jQuery, Bootstrap, HTML, and CSS.

★ **The Wall** (C#) — A social networking application, similar to Facebook, featuring a login/registration page and message posting

  ○ Structured the database tables and joins, implemented sessions, validations, data mapping, and class structures between forms and database. Created a simple, singular webpage interface for message content to display.
  ○ Developed using C#, ASP.Net MVC, Entity, MySQL, HTML, and CSS.

BUSINESS EXPERIENCE
